- '62 MICHAEL MAURA is President & General Manager of Maura Lumber Co. Nassau. He was married to Arturita Ruffin in 1963 and has two sons.

CONTINUED ON PAGE 7

St. Andrew's Completes 70th Year

September 12, 1899 was the day St. Andrew's College in Chestnut Park, Toronto opened its doors to its first students. The original student body consisted of 43 boys. We are happy to say that seven of these are still on our current mailing list. They are Nigel Bruce, Douglas Wilson Fraser, John Campbell Fraser, Lauren Stewart Harris, H. Gordon Langlois, Dr. Norman Macdonell Keith and Wilfred Edmund Swan. Unfortunately we have lost track of fourteen others and presume they have died. Just in case some of our readers can supply information concerning any of them, here are their names - Frederick Ross Bickell, Austin Russell Campbell, George Arthur Crane, Ivan W. Dickson, William Ernest Gibson, Reginald Earl Fullerton, Douglas Gordon, R. W. MacIntyre, Percy Tuplin MacNutt, LeRoy Linnard, Harold Campbell Purves, William Arthur Ratcliffe, Alexander Dwight Smith and Herbert Pembroke White.

Since quite a few Andrean families are now in their third generation, some would recall their schooldays at one or more of S.A.C.'s three locations pictured at the right. To many it will be quite amazing to realize that the "new School at Aurora" has been there for 43 years now!

Two of our more distant "originals" have sent greetings to the School on this 70th Anniversary. Dr. Norman M. Keith, M. D. writes from Rochester, Minnesota "In spite of grey hairs, a good daily walk keeps me fit. Looking back 70 years - those good old days - when not even the daily Latin of Percy Robinson and French of Adolph Meyer kept us from having much fun and grand sports".

Douglas Fraser, No. 1 on the S.A.C. student roll, now 81 but hale and hearty in North Hollywood, California, relates some interesting recollections. "Possibly not remembered by many is that the original S.A.C. colours were the same as Queens - light blue with orange & black collars and cuffs. The first gym was a metal building with a cinder floor. No indoor plumbing but two outdoor outhouses which were apt to be rocked by passers-by when they found someone inside!

"It was difficult to get enough football players for the 1st Team and a 13 year old, Billy McAndrew, played full-back and did a good job of it. Though the scores against that team were astronomical, I later played on the first team to defeat U. C. C. (1905).

"Even in those days Lawren Harris was filling his notebook with drawings. He organized a hockey team with headquarters at his home on St. George Street.

"The reason I was the first boy enrolled was that when Dr. Bruce decided to establish a Presbyterian Boys School among others he consulted was my father who was in charge of Presbyterian publications for Canada. My father was enthusiastic about the project and was able to give the school publicity in all the Presbyterian Churches, and he enrolled me at once.

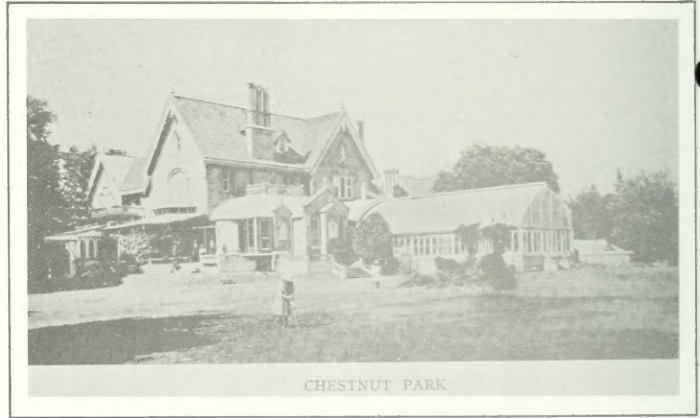

"Those first years were very happy and interesting ones."

Our 70th year has been a good one. It began with enrollment at an all time high for the present School with 319 boys on hand. Academically a high standard has been maintained. Forty of forty-three boys in Upper VI (Grade 13) have been accepted at university, for example, six of them were Ontario Scholars and five more managed 1st class honors. In sports the red and white colours were prominent. Our

ANNUAL GIVING

St. Andrew's College holds a special meaning for all of us. To Old Boys it is an indelible fact that we are Andreans and that St. Andrew's is a part of us. To each Parent, St. Andrew's is the Trustee of her son's education and development.

St. Andrew's College is the provider of many things, but in my view, its most important contribution is the intangible gift of opportunity. The present day Andrean has the opportunity to participate and compete with his peers, be they of his age or of his ability; he can excel; he has the freedom to agree or to dissent; but above all he is given the opportunity to contribute to as well as share in the way of life which is St. Andrew's. This was true of the past and I am confident that it will be so in the future.

The physical fact that St. Andrew's exists and provides opportunity has not been, nor will it be, the product of sorcery or wishful thinking. From the first day of the existence of St. Andrew's the legacy of opportunity has been handed down from generation to generation by the payment for and delivery of brick and mortar for its buildings, equipment for its classrooms and space for its playing fields.

When a boy attends St. Andrew's he inherits that legacy at no cost to him or his parent. It is true that while at school the Andrean contributes to tradition - he achieves the grades, plays the games, marches in the Cadet Corps and carries the name of St. Andrew's. The days at St. Andrew's were, are and will be periods of growth. However, St. Andrew's is a living organ and it too must grow or decline.

The hope, to which all our efforts are directed, is that all of you who share a part of St. Andrew's will contribute to ensure that the legacy which is St. Andrew's continues to be a proud one in every man's eyes.

James F. Laing, '49

Sons of Old Boys 1968-69

Changing Concepts in Education at SAC

It is to be expected that St. Andrew's College, which frequently has been in the forefront of educational thought (for example, the French plan introduced in the mid-50's well before French had been introduced in the elementary school grades in the province and the early experiments in the 'New Math' some ten years ago) would be aware of and would be taking part in the newer concepts of educational organization & course content. At SAC we have always been aware of the individual and now we are moving into the area where each senior boy will have a programme of studies adapted to his individual needs and aptitudes. In the Upper Sixth (Grade 13) this year some 35 boys will have no less than 14 programmes. It will now be possible, for example, for a boy to take English, French, Latin and History only; or he may take English, Math A and B, Physics and Chemistry only, and qualify for admission to many University courses. Similar diversity applies in the Lower Sixth (Grade 12) and Fifth (Grade 11) forms. A considerable part of the new approach has come from the changing admission requirements of the Universities. As long as they held to rigid requirements, the schools could offer little choice. With the change in viewpoint, we are now able to widen our offerings and develop programmes suitable for the individual boy.

Some new subjects are to be offered next year. A course in Theatre Arts will be offered at the Fifth Form level. The highly popular Fourth Form Geography Course with its extensive field studies will continue. Music will be extended through the Fifth and Lower Sixth Forms.

The new emphasis on an experimental course content in the Sciences will continue as will the interesting work being done in the French department with the 'Voix et Image' approach.

Despite all the new concepts, at SAC we hope to be able to continue our traditional theme of excellence - a theme which is basic to the whole school whether it be in the classroom, the cadet corps, on the playing fields, or in our life together.

Old Boys' News

CONTINUED

'63 JOHN H. LATHROP is currently teaching history at Fergus D.H.S. & is attending courses at the University of Western Ontario during summer of 1969. He was married September 16th, 1967.

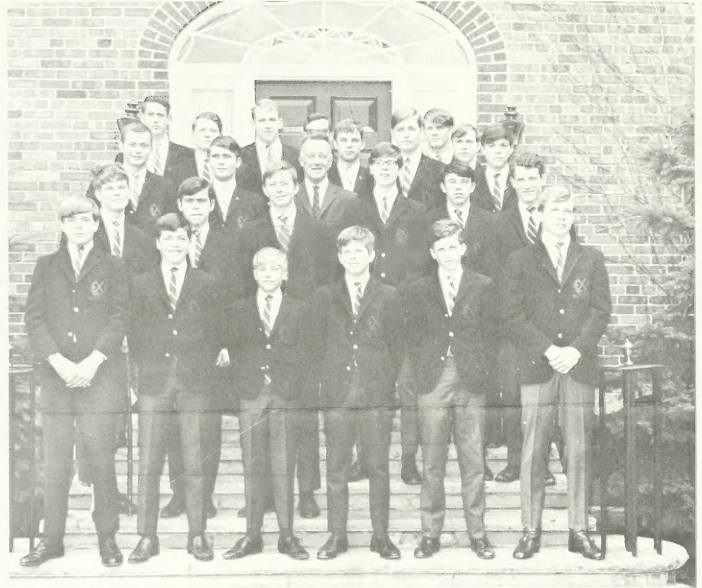

'64 LEE COULTER was elected to Students Administrative Council at U. of T. and is Educational Commissioner of the Council.

PETER E. GOODWIN is with Laurentian Airways for the summer and will be teaching school in Ottawa next year at the Bell High School.

'65 ROGER JONES has returned to Canada after a year in England, during which he was a member of the cast in the making of a James Garner movie.

DAVID LOVE graduated from York University this year and plans to enter O.C.E. in the fall.

GEORGE R. KITCHEN graduated from York in honors economics.

Back - C. B. Edwards, C. A. Munro, J. M. Jackson, P. H. Dean

Fourth - I. M. McIver, J. D. Gear, R. W. Hurter, J. H. J. Murrell

Third - R. J. Martin, R. S. Jolliffe, Mr. Coulter, G. C. Dobbins, P. M. Dobbins

Second - D. Grass, L. E. Bradley, C. F. Crosbie, H. G. Housser, D. B. Macdonald

Front - G. B. Kilpatrick, J. T. Shortly, M. I. Fleming, R. E. Grass, J. W. Macdonald, G. J. Wadds.

CHRIS FITZGERALD has been re-elected to the position of Editor of the Compass, Lake Superior State College's student newspaper for the second year. In April he was elected President of the Michigan Collegiate Press Association, a State-wide organization of newspapers, radio stations and yearbooks on the campuses.

'66 CAM CLARK graduated from Waterloo Lutheran University in June. He expects to pursue a Master's degree in Geography at York this fall.

DAVID CATHERS graduated with a Bachelor of Arts degree this spring from Notre Dame University in B.C.

BRUCE CROCKETT graduated from Boston University in Business Administration this year and will be working at Canadian General Electric in Toronto in the fall.

70th Year

CONTINUED

swimmers winning the LBF meet for the second year in succession and the open class rugby team taking the All-Ontario secondary school championship for the third year in a row.

Two individual athletic accomplishments by S.A.C. students during this summer must also be mentioned. Robert (R.J.) Martin just finished Grade 12 and the son of an old boy, Jack A. Martin of Paris, placed first in the 100 metres and second in the 200 metres in the Canadian Junior (under 20) Track & Field Championships at Calgary. Robert is now co-holder of the Canadian Junior record in both the 100 yards and 100 metres, and a prime prospect for Canadian National team next year.

John Wood, another Grade 12 lad won the Canadian championship in paddling K2 Class (doubles) with his partner, and placed second in the C Class (1,000 metre singles). John was a member of Canada's Olympic Paddlers in 1968.

Our Cadet Corps shooting record this past year is worthy of mention. The No. 1 team finished fourth out of more than 200 Cadet-teams entered in the D.C.R.A. competition. The No. 1 and No. 2 teams were first and second among independent schools in Canada.

The Headmaster reported on Prize Day that the entire teaching staff is returning in the fall. Dr. John Wilkie after three years as Chaplain is returning to the ministry, taking up his duties as pastor of Forest Grove United Church in Willowdale in August.

The climate of St. Andrew's is obviously conducive to a happy family life as there are now 26 children of the academic staff living on the campus!

PRIZE DAY 1969

Traditionally taking place on the "quad", the Prize Day ceremonies were driven indoors this year for the first time in many years due to an untimely downpour of rain. However it demonstrated once again how fortunate the School is to have the Ketchum Auditorium for just such an occasion. Platform guests were seated on the stage & with the assistance of folding chairs in the aisles nearly all guests and students were accommodated.

The Honourable W. Ross Macdonald, P.C., C.D., Q.C., LL.D., Lieutenant Governor of Ontario, was the guest of honour and delivered an amusing and timely extemporaneous address to the boys. His aide for the day was Lt. Col. Frank F. McEachren, E.D., K.L.J., an Old Boy and former Governor of the School.

Mrs. Peter Cameron assisted by Mr. MacPherson presents the Lawrence Crowe Trophy and 48th Highlanders' Chapter I.O.D.E. Rifle for shooting to Frank McMulkin. Frank won the competition for the rifle in a three way shoot-off when he shot a perfect score.

Geoffrey Love receives from the Lieutenant Governor the Laidlaw Trophy, the Macdonald Medal, the Lieutenant Governor's Silver Medal and the Governor General's Medal. Son of Mr. and Mrs. Gage H. Love, King, Geoff was quarterback and co-captain of the First Football team, centre and captain of the First hockey team, opening batsman of the First cricket eleven and led Grade 13 class with an average of 88.3%

The platform guests are led into the Ketchum Auditorium by School pipers
